ACCELERATED SECOND DEGREE BSN PROGRAM (ASDNU)

The Marion Peckham Egan School of Nursing and Health Studies offers an accelerated Bachelor of Science in Nursing (BSN) degree for individuals who hold a bachelor's degree in a field other than nursing. The program begins in May and continues through graduation in August of the following year: a total of 15 months.

The Accelerated Second Degree BSN Program (ASDNU) is designed to draw on your prior education and experience while allowing you to earn a second bachelor's degree in an accelerated format. This previous knowledge serves as a foundation for nursing courses and helps you develop the social awareness, critical thinking skills, aesthetic sensibility and values that prepare you to sit for the NCLEX licensing exam. The program will empower you to become a leader in the nursing field.

Admission

Admission is competitive and all students must have a minimum GPA of 3.00 to enter as a nursing major. Students must complete an application to begin nursing courses. Admission is done on a rolling basis.

Core Requirements

Applicants must meet the University's core course requirements. Course requirements in the liberal arts and required supportive courses can be met by challenge examinations, transfer credits from other academic institutions, or enrollment in specific courses. Courses are accepted in transfer from other accredited colleges and universities on the basis of a satisfactory (C or better) academic record and course equivalency.

Prerequisite Course Requirements

The Egan School suggests that all prerequisite courses be completed within 10 years prior to the first nursing course. Applicants normally have completed science courses with grades of A or B in the last three to five years. Acceptance of credit is at the discretion of the Program Director and Dean. Students are expected to review course material to ensure that their knowledge of the subject matter is current. Students can maximize their potential for success in the nursing program with a strong foundation that is provided by these courses.

Residency Requirement

A minimum of 60 credits, including credits in nursing, must be completed at Fairfield University. In addition, the last 30 credits for the degree must be taken at Fairfield University.

Credit from International Programs

Students completing coursework outside the United States must submit certified English transcripts and course-by-course evaluation of all academic records. Information may be obtained from World Education Services (800-937-3895 or info@wes.org).

Requirements

Second Degree Core Courses and Prerequisites

Fielequisites
