

PHYSICS MINOR

Requirements

To earn a 16-credit minor in physics, students complete the following:

Code	Title	Credits
PS 0115 & 0115L	General Physics I and General Physics I Lab	4
PS 0116 & 0116L	General Physics II and General Physics II Lab	4
PS 0204L	Modern Experimental Methods Lab	2
PS 0285	Modern Physics	3
Select one three-credit 200- or 300-level physics course, with chair's approval		3
<hr/> Total Credits		16

Substitution of the Modern Physics course must be approved by the chair.

Note: Biology and chemistry majors can minor in physics by taking two lecture courses and one laboratory course beyond the requirements of their major. Engineering majors can minor in physics by taking one lecture course and one laboratory course beyond the requirements of the major.
