

# CERTIFICATE IN PROFESSIONAL INTERIOR DESIGN

---

Fairfield University's Certificate in Professional Interior Design continues beyond the Residential Certificate to broaden the student's exposure and understanding to include more complex interior design concepts which include more extensive space planning, barrier-free design, plumbing, wiring, construction and egress codes which apply to public space as well as residential spaces. The curriculum also exposes students to a broader range of subjects that are part of the study and application of interior design.

The Certificate can be earned as part of the requirements of the MA program or on its own and students may transition into the MA program at any time. Students may join ASID as student members and may advance to Allied ASID membership upon completion of the Professional Certificate.

## Requirements
