EDUCATIONAL LEADERSHIP

The Doctorate of Education (EdD) program in Educational Leadership for Teacher Leaders is designed for experienced teachers, such as classroom teachers, school psychologists, math coaches, or reading interventionists, who have a desire to lead from within and across classrooms to transform education. The EdD program is a three-year, hybrid, low-residency program.

The program aligns with Fairfield's mission of preparing educators for leadership and service through broad intellectual inquiry, the pursuit of social justice, and cultivation of the whole person. The program is tailored for individuals who have already taken or seek to take on expanded roles and responsibilities in their grade level teams, departments, schools, or districts to influence teaching and learning practices on a greater scale.

One of the core goals of the program is to prepare teacher leaders who are advocates for social justice and anti-racist policies and practices, and who take actions as leaders with and for students, families, communities, and organizations for transformative change.

Educators who pursue the program will gain deeper insights into the theoretical and practical foundations of leadership and the profession. Candidates will learn how knowledge of education theory, inquiry, and data positively impact their teaching and the practices of those around them.
