

DIGITAL JOURNALISM

Overview

The Bachelor of Arts degree in Digital Journalism is an interdisciplinary, rigorous, 12-course program designed to provide students with the knowledge, skills, and experience needed to thrive in the quickly changing media landscape. The curriculum offers a solid foundation by training students in news writing, multimedia production, data-driven storytelling, and ethics. The extended list of electives allows students to customize their pathways for their pursuit of journalistic storytelling – feature writing, sports writing, podcasting, broadcast journalism, etc. The skill sets students will gain from the program will prepare them for professional careers in print and online journalism, broadcast journalism, technical writing, freelance writing, public relations, social media, marketing, law, and other fields.

By completing a major in Digital Journalism, students will be able to:

- Demonstrate their ability to identify bias or misinformation and synthesize information from varied sources, including research, interviews, eyewitness accounts, analyze its veracity and usefulness; and build it into stories to help their audience understand an issue.
- Gain skills in using industry-standard journalism tools and software for content creation and data analysis.
- Understand the ethical responsibilities of a journalist, including accuracy, fairness, and impartiality, as well as media-related legal framework, including those pertaining to freedom of the press, libel, and privacy.
- Describe how the knowledge, attitudes, skills, and experience they develop in the program can be used in non-journalism settings such as law, public relations and marketing, and a variety of writing careers.
- Demonstrate their ability to write and communicate clearly across multiple platforms.
- Adapt to emerging technologies and media trends by integrating new tools and platforms into journalistic practice.

The curriculum is accompanied by a vibrant student media scene on campus consisting of the Fairfield Mirror, WVOF, and the Rear View. Students may start the Digital Journalism sequence as early as their first year and are encouraged to join the student press as early as possible.
