The Educational Studies and Teacher Preparation Department, located in the School of Education and Human Development, in close collaboration with the College of Arts and Sciences, offers minors in Educational Studies and Special Education open to all interested undergraduates and a Five-Year Integrated Bachelor’s-Master’s Degree and Teacher Certification Program for students with approved majors in the College of Arts and Sciences. Candidates are advised by the faculty advisors in their majors and by faculty in the Department of Educational Studies and Teacher Preparation.

Undergraduates wanting to declare a minor in Educational Studies or Special Education should meet with the Program Director as early in their studies as possible. Anyone interested in applying to the Five-Year Program must first declare the minor. Decisions for formal admission to the Five-Year Integrated Bachelor and Master of Arts teacher education program are made by March 15 and October 15 for Level I and on February 1 for Level II. Information sessions for the minor in Educational Studies and Special Education and the Five-Year teacher education program are offered each semester, and the faculty of the Educational Studies and Teacher Preparation Department are available for individual advising by appointment throughout the year.

**Teacher Education**

Candidates interested in pursuing certification to teach Elementary Education (Grades 1-6), Secondary Education (Grades 7-12) or Special Education (Grades K-12) can do so through one of three 5-year Bachelor and Master of Arts Programs in Teacher Education. The Teacher Education Programs prepare scholar-practitioners who have the knowledge, skills, and dispositions to enact meaningful connections between theory and practice, promote a developmental model of human growth and learning, exercise ethical professional judgment and leadership, and advocate for quality education for all learners. As members of an inclusive community of learners, we (university faculty, experienced and aspiring classroom teachers, and community members and leaders) work together to create and sustain exemplary learning environments that empower K-12 students to become engaged, productive citizens in their communities. Across all programs, our foci for inquiry and action include the socio-cultural and political contexts of education and schooling, the complexities of teaching and learning, teacher work and professional cultures, culturally relevant understandings of human growth and development, and socially responsible uses of technology in schooling and society.

Descriptions of all the required education undergraduate and graduate courses are found in the School of Education and Human Development section of this catalog. Descriptions of undergraduate courses are found under appropriate departmental course listings.
