

PHYSICS MINOR

Requirements

To earn a 16-credit minor in physics, students complete the following:

Code	Title	Credits
PHYS 1171 & 1171L	General Physics I and General Physics I Lab	4
PHYS 1172 & 1172L	General Physics II and General Physics II Lab	4
PHYS 2285	Modern Physics	3
PHYS 2285L	Modern Experimental Methods Lab	2
One additional 2000- or 3000-level physics course		3
Total Credits		16

Substitution of the Modern Physics course must be approved by the chair.

Note: Biology and chemistry majors can minor in physics by taking two lecture courses and one laboratory course beyond the requirements of their major. Engineering majors can minor in physics by taking one lecture course and one laboratory course beyond the requirements of the major.
