

MINOR IN SOCIAL WORK

The minor in social work provides students with knowledge about human behavior, systems-thinking, and organizational practice as well as skills to advocate for social justice and support individuals and communities. The policy and research courses include service-learning components, allowing students to apply concepts from the classroom into practice at community partner sites. A minor in social work complements majors in education, healthcare, business, the humanities, and more.

Requirements

For a 17-credit minor in Social Work, students complete the following:

Code	Title	Credits
